

**YOUR ONE STOP SOLUTION
FOR ENERGY EFFICIENT
VENTILATION SYSTEMS**

YOUR ONE STOP SOLUTION FOR ENERGY EFFICIENT VENTILATION SYSTEMS

> INDUSTRY SPECIALISTS

D.R Ventilation is a leading specialist in the design, supply, installation and servicing of energy efficient ventilation systems to both domestic and commercial properties.

An independent company, with more than 25 years' experience, DRV has worked on many major developments for Hill Partnerships, Countryside Properties, Leadbitter Construction, Willmot Dixon as well as working alongside independent builders, homeowners and housing associations.

DRV offers a professional yet personalised service, tailored to the scope of any project, however large or small. Its systems are all designed to meet Building Regulations Part F, SAP and sustainability coding and the NHBC Guidance for Ventilation requirements.

> SUPPLY SPECIALISTS

D.R Ventilation Supplies, part of DRV, offers a "one stop" solution providing the supply of all aspects of ventilation parts and equipment; ducting, fans and fittings, to local trade and businesses.

> ADVICE SPECIALISTS

Whatever your needs, DRV offer comprehensive information and advice either for the supply of parts only and/or for design, supply, installation and servicing for all leading manufacturer ventilation products.

> ABOUT D.R VENTILATION

Founded in 2002 by David and Helen Roberts, D.R Ventilation combines David's background in ventilation with Helen's expertise in the construction and estate management markets.

During the company's first six years, DRV worked for the leading ventilation manufacturers carrying out installations on their behalf. In 2008 DRV expanded to incorporate an offering for design, supply, installation and commissioning of all leading ventilation brands, after DRV recognised a gap in the market for an independent company offering this service. In 2014, expanding the business further and wishing to offer a supply only service, D.R Ventilation Supplies was launched, aimed at trade and businesses wanting to fit their own systems.

➤ ENERGY EFFICIENT SOLUTIONS

D.R Ventilation offers a range of energy efficient, reliable and affordable ventilation solutions including:

- HEAT RECOVERY SYSTEMS
- PASSIVE VENTILATION
- MECHANICAL EXTRACT VENTILATION

Proper maintenance and servicing is essential on all ventilation systems to ensure the systems run properly, both for the health of the occupants and to minimise running costs.

D. R Ventilation supply filters and also offer a yearly maintenance and cleaning service to meet Building regulations and Government health requirements.

➤ UNIQUE SHOWROOM

D.R Ventilation has an independent UK showroom - in Leighton Buzzard - which showcases a range of working systems from different suppliers, including Vent-Axia, Nuaire, Zehnder and Airflow. The showroom gives buyers and industry experts the opportunity to see fully operational domestic ventilation systems in a realistic residential setting.

"We have successfully used D.R Ventilation on a number of developments, for a variety of services. We have found them to be very professional, responsive and helpful, and they have worked with us to find solutions within some challenging designs. We fully intend to continue using them, and would have no hesitation in recommending them to any other company"

Oakbridge Homes Ltd

"I have no hesitation in recommending D.R Ventilation Ltd to carry out installation of heat recovery and mechanical extraction systems"

Vent Axia Ltd

"With regards to my project and installation of heat recovery system, throughout the project D.R Ventilation performed with great professionalism and speed, which in turn aided in the achievement of our programme date"
